

Professor Jean-Sebastien Silvestre, PhD, Research Director, INSERM, Paris, France

From 1999 to 2007, he has been assistant professor at Paris-Diderot University and an honorary member of Institut Universitaire de France. Since 2008, he is research director at the French National Institute for Health and Medical Research (INSERM) and head of team 6 'regenerative therapies for cardiac and vascular diseases' at the Paris Cardiovascular Research Center-Inserm UMRS 970 (Paris, France). His central interest lies in cardiovascular physiology and the role of vascular growth and remodelling in ischemic diseases. He has co-authored more than 100 published articles deciphering molecular and cellular mechanisms regulating key events in post-ischemic tissue remodelling with potent revascularization therapeutic promise.
