

NAA 2021 Virtual

Early Detection and Prevention of Cardiovascular Disease

The theme of the 10th Annual virtual meeting will focus on “Early Detection and Prevention of Cardiovascular Disease” and will feature plenary lectures, keynote lectures, symposia and tutorial lectures by international leaders in the field and 'rapid fire' oral presentations by young investigators and trainees. Our sessions will be hubs of discussion, with opportunities to network with leading basic, clinical and population scientists, practicing physicians and other professionals from the United States, Europe, Asia and Central and South America, including members of our sister societies ARTERY (Europe), Pulse of Asia (Asia) and LATAM (Latin/South America). There will be opportunities to visit our sponsors' websites and view the latest technologies, devices and other products from our sponsors.

Abstract Deadline: Monday, March 22, 2021

2020 NAA Program Committee
